

Jet Analytics Cloud

Jet Analytics Cloud is a complete cloud-deployed data preparation, automation and modeling solution that enables Dynamics customers to accelerate BI projects without requiring specialist skills. It is a complete tool for data preparation, automation, and modelling, which simplifies data management and speeds up time-to-value.

Cloud deployment offers better security and performance at a lower total cost of ownership than on-premises implementations. Jet Analytics Cloud allows new and existing customers to significantly decrease complexity, improve reliability, benefit from disaster recovery, and the headache of involving IT to manage the infrastructure.

Jet Analytics Cloud:

- **Leverages Microsoft Azure Public Cloud** – the industry-leading provider with clear security and privacy requirements – in region specific primary and hot standby disaster recovery datacenters
- **Eliminates single points of failure** on application, database, storage, and network levels
- **Provides continuous automated monitoring** and alerting to ensure ongoing performance against SLA obligations
- **Ensures security** and integrity of the data in case of an incident or disaster
- **Provides hot standby disaster recovery** with an automatic failover mechanism
- **Provides flexibility** and scales both vertically and horizontally to meet the growth and needs of all customers
- **Provides simple and fast implementation** which requires minimal efforts from the customer. In many cases the implementation can be completed without involving technical resources on the customer's side.

About insightsoftware

insightsoftware is a leading provider of reporting, analytics, and performance management solutions. Over 30,000 organizations worldwide rely on us to support business needs in the areas of accounting, finance, operations, supply chain, tax, budgeting, planning, HR, and disclosure management. We enable the Office of the CFO to connect to and make sense of their data in real time so they can proactively drive greater financial intelligence across their organization. Our best-in-class solutions provide customers with increased productivity, visibility, accuracy, and compliance.
